Yesterday, just after the open, WWR tweeted:  
*“S&P targets from yesterday’s report: 2617, 2626.  
 First Fibonacci S&P target of 2617 achieved this morning right  
 after the open. Next Fib target = 2626. Current price = 2623.”*

Then after the close:  
*“Today after reaching our first target, the S&P came within less  
 than one point of our 2<sup>nd</sup> target of 2626 at 2625.76!”*

The counter trend bounce up has now retraced an ideal Fibonacci .618 of the decline from the high of 12/3/18 to the low of 12/26/18. With the daily stochastic screaming overbought for over ten consecutive days now, we expect the market directionally turn

back to the down side now that wave 2 of (3) is complete.

***Positions for rating services:***
