8/26 chart above 4<sup>th</sup> wave target, 8/27 chart below, target achieved!

The S&P accommodated our forecast today with the gap open right at our Fibonacci .618 target price of 2895. This provided an excellent turning point in the market and of course an even better entry position to add puts. Note in the chart above the internal wave structure of wave iv in red. Wave c gained perfect equality with wave a at 2895, which by no coincidence was also the exact Fibonacci .618 retracement level of wave iii. Once again, the market continues to move in Fibonacci perfection. That perfection granted us a high level of confidence as we bought puts at every move up in the market with the knowledge that the fifth wave down was just beginning. The Fibonacci target levels for wave v down have been added below.

### **Downside targets:**

**2843** = wave v = wave i.

**2819** = wave v = 1.618 of wave i.

**2822** = move below this wave 1 low eliminates move > 2950.

**2814** = third wave = first wave from 0813 high

**2748** = open gap from June 3, 2019. Achieved 8/23

**2742** = third wave = 1.618 of first wave from 0813 high

**2733** = wave 3 = wave 1 from 0716 high

**2713** = third wave equals 1.618 of first wave from 0813.

**2605 = wave 3 = 1.618 of wave 1 and a Fibonacci .618 retracement of rise from Dec. low. A nice temporary stopping point for the end of a wave down but not the end of the entire wave E decline.**

### **Upside resistance:**

**2883** = Fibonacci .500 retracement.

**2895** = Fibonacci .618 retracement. Achieved 0827.

**2901** = wave i low.

## Fibonacci Options Day Trader Report:

As mentioned earlier, the S&P hitting our target at the open gave us a high confidence level that the market would go down from there. We bought to open five different times purchasing ten August 30<sup>th</sup> 2875 (at the money) puts. We sold them one at a time, a total of nine different times. In summary, **we were in and out of the market 14 different times today trading 19 options and made a net realized profit of \$4,382 on 21.16% gain.**
