Third Wave Extension!

Above 10/07 wave count. Below third wave extension, 10/08

Yesterday's report warned:

*“Allow for a brief (minutes, hours) although not required (**third wave down may extend**) move up to our Fibonacci levels.”*

And the market delivered the third wave extension allowing us to sell our puts with a nice profit. As the fifth wave subdivides, we anticipate a slight rise tomorrow in wave four, followed by a decline in wave five to our Fibonacci target price of 2882. Further bearish levels are beneath that target.

Upside resistance levels:

2959 = 1007 high.

2992 = wave 2 high.

3027 = 0726 all-time high.

Downside targets:

2881 = wave v = 1.618 of wave I from 1007 high.

2841 = .618 retracement of rise from 0603 low.

2841 = 200 day moving average.

2822 = third wave extension equals first wave from 2992 high

2770 = .382 retracement of rise from 122618 low to all-time high.

2737 = third wave extension = 1.618 of first wave from 2992 high.

Fibonacci Options Day Trader Report:

Just as we layered or dollar cost averaged in our puts over the last couple of trading days, with today's decline we started layering out. All told, we sold 9 of our 10 puts throughout the day for a **net realized gain of \$6374, on 44.34% gain today.**
