**#4 Woodson Wave Report for the 6 month period ending 102519.**

In today's shortened trading session we focused simply on trading the market on 1 and 5 minute charts expecting the S&P to simply close the open gap left from Wednesday's open. No wave counts, no concern about the bigger picture, just traded today for three and a half hours based on the S&P closing the gap left open from Wednesday's open. Everything went exactly according to plan in the allotted three and one half hours.
